

FREE-Lease Analysis and Report

Since 1972, Aaxon Laundry Systems has worked with Management Companies, Condominium Boards, and Apartment Building Owners to provide property residents with Premium Laundry Services throughout the State of Florida. With thousands of machine accounts, our lease department experts have the experience to interpret and analyze your existing laundry leases. With all the responsibilities Management Companies perform to maintain excellent service for their property residents, we know it is very difficult to know exactly what each laundry lease is contracted to pay, when payment is due and when the lease expires.

Aaxon's **Complimentary Lease Analysis and Report** eliminates that burden. We will analyze all your existing laundry leases and submit a comprehensive report to you.
